THE SIDCHROME DIFFERENCE

BUILT TO LAST A LIFETIME™

Sidchrome has built its reputation on supplying tradespeople with high quality, premium and professional products that last a lifetime, supported by Sidchrome's Lifetime Guarantee against faulty workmanship and material on most products. For full warranty statement please visit www.sidchrome.com.au/warranty.

ANTISLIP™ FASTENING SYSTEM

Patented ANTISLIP™ design features on the open end of Sidchrome spanners. It is a locking groove to prevent slippage of a nut and bolt, which prevents knuckle injury.

TORQUEPLUS™ FASTENING SYSTEM

Patented TORQUEPLUS™ fastening system is found on Sidchrome sockets and ring end of spanners. It is a feature that allows you to apply more torque, while reducing the risk of fastener rounding and provides a greater opportunity to turn worn, rounded fasteners.

RINGSTOP GOTHRU SYSTEM

The Ringstop Gothru System employs a stopping mechanism within the geared ring end of the spanner which prevents slipping past the fastener. This is extremely useful when working on long bolts or when access to the fastener is limited. Unlike traditional stop features, the Ringstop can be pushed past the fastener head when necessary. Perfect for use on double nut, or bolt and nut configurations. The Ringstop can also be used with socket and bit adaptors, increasing the versatility of the tool.

EVA FOAM SYSTEM

The Sidchrome EVA Foam System will keep you organised. Easy to read, screen printed size measurements will stop you wasting time looking for the tool you need. A durable carbon fibre covering is designed to withstand most work-shop fluids, while the red underlay foam will quickly identify any missing tools.

REAL TOOL COUNT

The Sidchrome Tool kit range feature a Real Tool Count, where the only tools that go into a kit are professional quality tools – not piece count boosters. For example, we don't count feeler gauge blades as pieces as some brands do. Sidchrome tool kits can be logically and easily built up and laid out to allow for quick and easy access to your tools when working in a busy workshop.

REDEEM YOUR APPRENTICE BONUS*

HOW TO REDEEM

- Proof of apprenticeship can be in the form of a TAFE/MTA college enrolment letter/form, ID Card or letter from your institution stating you are a current apprentice.
- Visit www.sidchrome.com.au/apprenticezone fill in the online form, upload your proof of purchase and hit send.
- To redeem manually, complete the cut off section at the bottom of this page.
- All redemption vouchers have to be fully completed and sent in with proof of purchase and proof of apprenticeship to:
Sidchrome® Apprentice Program Redemption – PO Box 4006, Box Hill South VIC 3128

For more information on how to redeem your apprentice bonus visit: sidchrome.com.au/apprenticezone

DO YOU NEED HELP PAYING FOR YOUR TOOLS?

THE AUSTRALIAN GOVERNMENT OFFERS TRADE SUPPORT LOANS TO GET YOU STARTED AT WORK

What are Trade Support Loans? Trade Support Loans are loans paid in installments totaling up to \$21,779 spread over four years. These loans are intended to assist apprentices with everyday costs while they complete their apprenticeship. Eligible Trade Australian Apprentices may apply to opt-in for regular installment according to their needs.

How do Trade Support Loans work? Trade Support Loans are a more effective method of assisting eligible apprentices with their everyday cost while they undertake their apprenticeship. The program provides apprentices with up to \$21,779 as an income contingent loan, compared with the old Tools For Your Trade payment.

Upon Completion of Apprenticeship = 20% discount is applied to the loan amounts borrowed.

Loan amount will be repaid through the taxation system when the minimum income threshold is reached. In 2021-2022 the minimum repayment occurs at income threshold of \$47,014.

For more information visit: australianapprenticeships.gov.au
